NOTICE OF PROPOSED RULE MAKING

Adopted: November 26, 1997

Released: December 12, 1997

Comment Date: February 2, 1998

Reply Date: February 17, 1998

By the Chief, Allocations Branch

1. Before the Commission for consideration is a petition for rule making filed by Tony Downes ("Downes") proposing the allotment of Channel 240A at Otter Creek, Florida, as that community's first local FM broadcast service. Downes indicated that he would file an application for Channel 240A at Otter Creek.
2. Section 307(b) of the Communications Act of 1934, as amended, requires that the Commission allot channels "...among the several states and communities." The Commission has defined "communities" as geographically identifiable population groupings. Generally, if a community is incorporated or listed in the U.S. Census, that is sufficient to satisfy its status. Absent such recognizable community factors, the petitioner must present the Commission with sufficient information to demonstrate that such a place has social, economic, or cultural indicia to qualify it as a community for allotment purposes. See e.g., Oak Grove, FL, 5 FCC Rcd 3774 (1990); Hannibal, OH, 5 FCC Rcd 3315 (1990); and Statenville, GA, 5 FCC Rcd 2685 (1990). Here, we do recognize that Otter Creek is incorporated and listed in the 1990 Census and that it has a post office, meeting the basic criteria for community status. However, we find that a population grouping of 136 people does not constitute a community for allotment purposes where the community may be devoid of the customary factors associated with determining community status, such as a library, schools, shopping centers, churches, a newspaper and social or civic organizations. See e.g., Searles Valley, CA, 3 FCC Rcd 5221 (1990); see also Naples, FL, 41 RR ed 1549 (1977). In past cases, we have rejected claims of community status where a nexus has not been shown between the political, social and commercial organizations and the community in question. Therefore, Downes is requested to present the Commission with specific

information to demonstrate that Otter Creek has the social, economic and governmental indicia to qualify it as a "community" for allotment purposes. See Gretna, Marianna, Quincy and Tallahassee, FL, 6 FCC Rcd 633 (1991) and cases cited therein. Downes should show that the organizations, civic groups, etc., have a nexus with the community in question.

3. A staff engineering analysis indicates that Channel 240A can be allotted to Otter Creek consistent with the minimum distance separation requirements of the Commission's Rules provided there is a site restriction 9.8 kilometers (6.1 miles) southwest of the community.¹ The site restriction will prevent a short spacing to Station WEJZ, Channel 241C, Jacksonville, Florida.

4. In view of the fact that the proposed allotment would provide a first local service to Otter Creek, the Commission believes it would serve the public interest to solicit comments on the proposal to allot Channel 240A to Otter Creek, in the event it is ultimately found to qualify as a community for allotment purposes. Therefore, we will seek comments on the proposed amendment to the FM Table of Allotments, Section 73.202(b) of the Commission's Rules, with respect to Otter Creek, as follows:

Community	Channel No.	
	Present	Proposed
Otter Creek, Florida	----	240A

5. The Commission's authority to institute rule making proceedings, showings required, cut-off procedures, and filing requirements are contained in the attached Appendix and are incorporated by reference herein. In particular, we note that a showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be allotted.
